Heavy Duty Bracket Cover

*based on shade size and weight

Additional Options

Standard or Heavy Duty Clutch System with Fascia

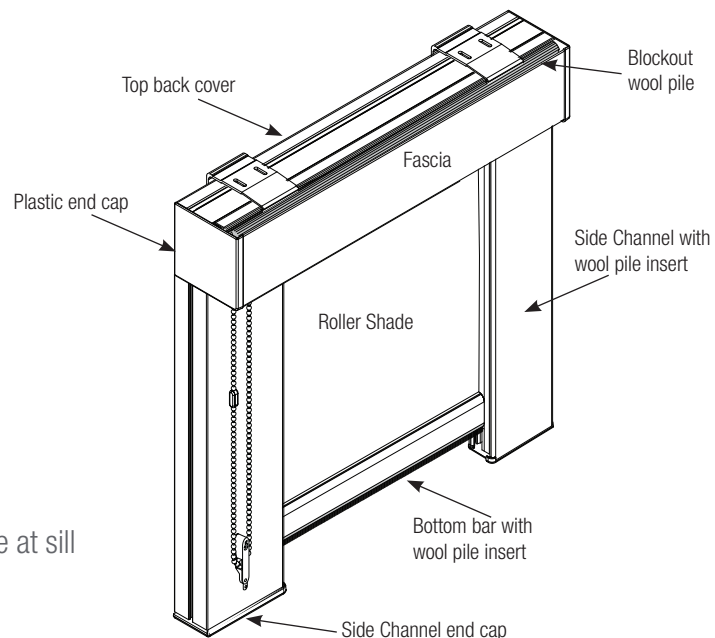

- 3" or 4" fascia with 2.75" bottom closure return (fascia size determined by fabric and shade size)
- Locking safety system prevents unintentional removal of the shade from its brackets
- Reverse roll profile available

Standard or Heavy Duty Clutch System with Blockout

- 3" or 4" fascia with 2.75" bottom closure return (fascia size determined by fabric and shade size)
- Locking safety system prevents unintentional removal of the shade from its brackets
- 2.52" wide side channels with wool pile inserts and end caps
- Top and back closure to prevent light leakage above fascia
- RB 500 Bottom bar with wool pile insert to prevent light leakage at sill
- All mounting is hidden for a clean look

Integrated Leveling Device

- Allows for easy adjustment after installation
- Works with all three clutch systems
